

Ali Mohammad

Javascript Developer

Highly motivated and skilled Full Stack JavaScript Developer with extensive knowledge in mobile app development, frontend and backend development. Committed to providing efficient and effective solutions to meet the unique needs of clients. Demonstrated ability to work collaboratively in a team and contribute towards achieving the company's goals. Seeking a challenging role in an innovative company that values continuous learning and development.

Employment History

Javascript Developer at Meier AG, Wesel, Germany

DECEMBER 2021 – PRESENT

As a Javascript developer, my primary responsibility is to create and maintain mobile applications for iOS and Android platforms using React Native. This involves writing clean, maintainable, and well-documented code that is scalable and performs well on both platforms. I also work on maintaining existing applications, fixing bugs and implementing new features based on user feedback.

In addition to mobile app development, I also work on creating and maintaining backend websites and platforms using Node.js, Express.js, and React. This involves designing and implementing RESTful APIs, integrating with databases, and ensuring that the platform is secure and scalable. I am responsible for testing and debugging code, and ensuring that applications and platforms are reliable, efficient, and user-friendly.

Training as IT Specialist For Application Development at Meier AG, Wesel, Germany

AUGUST 2018 – DECEMBER 2021

I completed an apprenticeship as an IT Specialist for Application Development, during which I gained experience in implementing one-page websites for clients from different industries. As I gained more experience, I worked with a team to develop mobile apps and platforms using technologies such as JavaScript, React, React Native, and Laravel. Additionally, I developed expertise in building database structures and working with web user interfaces of various API.

Internship at Freetree GmbH, Altdorf bei Nuremberg / Germany

JUNE 2017 – SEPTEMBER 2017

As an intern, my primary responsibility was to install and configure CMS (WordPress) for websites.

I was also responsible for adjusting the styles of websites using CSS, which included modifying the appearance of web pages by adjusting layout, typography, color schemes, and other design elements. Additionally, I was involved in adjusting
